ASHISH MAHARANA
WEB-DEVELOPER

Email: ashish.maharana07@gmail.com

OBJECTIVE

Interested in the role of a Web Developer where I can contribute my technical skills to meet company requirements and can enhance my skills in the maximum way possible.

TECHNICAL SKILLS

- PHP - (Laravel, CodeIgniter)
- WordPress - (Basic Knowledge)
- JS - (React JS, JavaScript)
- jQuery
- AJAX
- HTML, Bootstrap, CSS

TOOLS USED

- Sublime Text, VS Code
- Xamp Server
- GitHub, Gitlab
- FileZilla
- Bitbucket
- Homestead

SOFT SKILLS

- Problem solving
- Time management
- Teamwork
- Active listening

PROFICIENCIES

- Communication skills
- Computer proficiency
- Collaboration talent
- Problem-solving abilities

WORK EXPERIENCE

WEB-DEVELOPER

Arham Infotech | Aug 2021 - Current

- Worked as a full-time web-developer on CodeIgniter, Laravel and React Js.

WEB-DEVELOPER

Dream Infotech | Aug 2020 - Jul 2021

- Worked as a full-time web-developer on CodeIgniter and Laravel.

WEB-DEVELOPER

Parexcellence IT Solutions | May 2020 - Jun 2020

- Worked as an intern on React Native app development for two months.

ACADEMIC HISTORY

VIVEKANAND COLLEGE FOR B.C.A
AFFILIATED VEER NARMAD SOUTH GUJARAT UNIVERSITY

B.C.A

Year: 2019

CGPA - 8.01

PIPERDIWALA ENGLISH MEDIUM SCHOOL

GHSEB - HSC

Year: 2016

Percentage - 54 %

PIPERDIWALA ENGLISH MEDIUM SCHOOL

GSEB - SSC

Year: 2014

Percentage - 58 %

ACCOMPLISHMENTS

- Career Edge : Knockdown the Lockdown online course offered by TCS - (TCS)
- Security Awareness Certificate offered by Wizer - (Wizer)
- Complete Guide To Redux-Saga With React JS - (Udemy)
- JavaScript: Understanding the Weird Parts - (Udemy)
- LinkedIn Skill Badges in (CSS, Front-End Development, Git, HTML, MySQl, OOP, PHP, ReatJs, SEO and Wordpress)

LARAVEL & REACTJS PROJECTS

LANGUAGE CONFIDENCE - AI FOR ENGLISH EDUCATION

URL: https://languageconfidence.ai/
Tech Used: Laravel 8+ with ReactJs (With Pure Redux)

- I closely worked on this dynamic teaching and testing of spoken and written English-based site called Language Confidence which is all about dynamic test structure for students.
- In this project I had worked on creating hard coded examination question types in ReactJs and written API in Laravel backend such as Comprehension, Fill in the blanks, Rearrange the letters to make words, Pick the real words, Multiple choice questions Dynamic result generation based on exam attempt.
- In this project I learned more about ReactJs (Pure Redux & Redux Saga) with Laravel Framework for API's creation.

GURUU - TEACHING PLATFORM FOR TEACHERS AND STUDENTS

URL: https://guruu.in/
Tech Used: Laravel 8+ with ReactJs (With Redux Toolkit)

- Guruu is a project mainly based on teaching and learning between teachers and students across India. Teachers can create exam tracks and can provide free and paid classes which the students can join, just like Udemy but in this project, the owner came up with an idea of an online video conference between teachers and students that makes different from other types of learning platforms.
- For the video conference I had created a demo just like Zoom using Video SDK (https://www.videosdk.live/).
- In this project, I mainly worked on making registration part of teachers and students, used Msg91 for OTP verification, I also worked with React components like Flat pickers for creating dynamically changing calendar views based on tracks creation.
 - In this project I learned more about ReactJs (Redux Toolkit & Redux Saga) with Laravel Framework for API's creation.

ARTITOR - FOR ILLUSTRATIONS AND STORIES CREATION

URL: https://artitor.com/
Tech Used: Laravel 5+, JS Libraries (SpectrumJS & FabricJs)

- Artitor is a project based on canvas creation for making illustrations, stories, dynamic svgs/icons, and many more things. This Artitor is mainly used worldwide by artists. It is focused on making the work easier for small business types and interns to make cool illustrations.
- There are 4 main modules which handles the create and edit of elements and canvas.
- I have closely work on pricing module of Artitor which is mainly focused on automatic subscriptions of pro plans by the users.
- I had worked on Stripe and it's Webhooks for managing pricings dynamically from Stripe API. created a module on Admin side for syncing latest prices from Stripe into the Artitor Database for reflecting it into whole website.
- This feature includes Upgrade, Downgrade, Cancellation of subscription plan by the users. For e.g. user can switch from monthly plan to yearly plan and vice versa. and it will dynamically managed by Stripe API's.
- I had also worked on fewer things in FabricJs & SpectrumJs for canvas and color picker related tasks in Artitor.

CODEINGNITER PROJECTS

AADRI - THE SAGE ADVICE

URL: https://aadri.in/
Tech Used: Codeigniter 3, Third Party API's (Google, Facebook, Razorpay)

- I closely worked on this dynamic astrology-based site called AADRI (The Sage Advice) which is all about bringing the wholeness of ancient Indian sciences into daily lives and employs two-fold tactics to achieve this objective.
- This project uses a scientific approach toward the understanding of our ancient sciences.
- One can get their consultation service regarding Vastu and astrology, read blogs, and view videos on Vastu and astrology.
- Also they sell products and services regarding Vastu and astrology.

PRINCE (INTERNATIONAL COURIER SERVICES)

URL: https://princeexp.com/
Tech Used: Codeigniter 3

- Prince International Courier Service is a dynamic courier service website which it serves courier service to all international destinations that are presently being served by international courier companies such as DHL, FedEx, UPS, TNT, etc.
- Prince International Courier Service is a Surat-based worldwide courier and air cargo international freight forwarder company.
- It also provides courier tracking and rate calculation service.

Identical Project: Express International Courier Service (URL: http://www.expressintl.in/)

IMA - (INDIAN MEDICAL ASSOCIATION - SOUTH GUJARAT)

Tech Used: Codeigniter 3

- Indian Medical Association is the only representative, national voluntary organization of Doctors of Modern Scientific System of Medicine, which looks after the interest of doctors as well as the well-being of the community at large.
- This project is mainly focused on gathering South Gujarat Doctors' data available to local people.
- They can search for doctors by selecting categories and can reach them as per their needs.

LOOTOCASH (COUPONS AND DEALS WEBSITE)

URL: https://lootocash.com/
Tech Used: Codeigniter 3, Third Party API's (Google, Facebook, Razorpay)

- Lootocash is the coupons and deals website based on affiliate marketing where customers can get lots of deals and coupons from more than 1500+ renowned brands like Amazon, Ajio, Flipkart, Redwolf, etc.
- Customers can sort and search coupons and deals easily by selecting brand name date-wise.
- Customers can get huge discounts using coupons from this site and save more money on their orders.
- This project is mainly focused on making the user interface easy for the customers.
